ADIL AHAMED B

ASPIRING JUNIOR CLOUD & DEVOPS ENGINEER | AWS | LINUX | GIT | PYTHON

Chennai, Tamil Nadu, India | Currently in Bangalore, open to relocation | Phone: +91 6374336616

Email: adil.ahamedwork@gmail.com

LinkedIn: linkedin.com/in/adil-ahamed-b-13b935279 | GitHub: github.com/adilahamedwork-oss | Portfolio: adil-ahamed-b.vercel.app

PROFESSIONAL SUMMARY

B.Sc. Computer Science graduate (2025) with hands-on cloud computing projects on AWS using Amazon S3 and Amazon EC2, supported by fundamentals in Linux, networking, Git version control and Python. Documents deployment steps and findings on GitHub, and has built troubleshooting skills through log and alert analysis in SOC labs. Currently learning shell/Bash scripting, Docker, CI/CD pipelines and cloud monitoring to contribute to deployment automation and reliable cloud operations. Strong analytical and problem-solving skills with clear communication.

TECHNICAL SKILLS

Cloud Computing: Amazon Web Services (AWS), Amazon S3, Amazon EC2, cloud infrastructure fundamentals, static website hosting

Operating Systems: Linux (Ubuntu, Kali Linux), SSH, command-line practice; Windows

Version Control & Deployment: Git, GitHub, Vercel deployment, static website deployment on Amazon S3

Programming & Scripting: Python, SQL, HTML, CSS, JavaScript; Shell/Bash scripting (learning)

Networking: TCP/IP, IP addressing, DNS, ports, Cisco networking fundamentals

Troubleshooting & Monitoring: Basic troubleshooting, log analysis, alert monitoring (LetsDefend SOC Fundamentals), Nmap, Wireshark

DevOps Learning Path: CI/CD pipelines, GitHub Actions, Docker, cloud monitoring and observability (currently learning; not yet used in projects)

Security: EC-Council CEH, Burp Suite, TryHackMe, PortSwigger Web Security Academy labs

Currently Learning: Linux Journey, OverTheWire Bandit and Natas, Cisco networking revision

PROJECTS

AWS S3 Static Website Hosting

- Created an Amazon S3 bucket, uploaded website files, enabled static website hosting, and configured access permissions.
- Tested the deployed website using its S3 website endpoint and documented the setup with screenshots in GitHub.
- **Technologies:** Amazon S3, HTML, CSS, GitHub.

AWS EC2 Linux Web Server Deployment

- Launched an Ubuntu Linux instance on Amazon EC2 and connected using EC2 Instance Connect.
- Installed and configured Nginx to serve a custom HTML website, configured EC2 security-group network access, and verified access using the instance's public IPv4 address.
- Documented the implementation steps, technologies, and outcome in GitHub.
- **Technologies:** Amazon EC2, Ubuntu Linux, Nginx, HTML, CSS, networking, HTTP.

Cloud Security Guardian | AWS Cloud Security

- Built an AWS Lambda-based security checking workflow to assess S3 security configurations and identify simulated security findings.
- Stored security findings in Amazon DynamoDB, classified findings by severity, and provided remediation guidance.
- Configured Amazon EventBridge Scheduler for daily execution of the security checks.
- **Technologies:** AWS Lambda, Amazon S3, Amazon DynamoDB, Amazon EventBridge Scheduler.

Personal Portfolio Website (adil-ahamed-b.vercel.app)

- Developed a responsive portfolio website presenting projects, skills and training, and deployed it from a GitHub repository to Vercel with automatic builds.
- **Technologies:** HTML, CSS, JavaScript, Git, GitHub, Vercel

CERTIFICATIONS & TRAINING

- EC-Council Certified Ethical Hacker (CEH) - certification
- LetsDefend: SOC Fundamentals - completed training (log analysis and alert monitoring exercises)
- TryHackMe - practical cybersecurity learning (training)
- PortSwigger Web Security Academy - web security labs (training)

EDUCATION

B.Sc. Computer Science, 2022 - 2025

The New College, Chennai, Tamil Nadu, India

- **Relevant Coursework:** Computer Networks, Operating Systems, DBMS, Software Engineering, Data Structures and OOP
- Extended the CS foundation through self-directed cloud, Linux and cybersecurity learning and hands-on AWS projects.

LANGUAGES

English, Hindi, Urdu, Tamil
